Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer lines 3b and 3c below.</i>		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>		
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes," and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.</i>		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990).</i>		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? <i>If "Yes," complete Part I of Schedule L (Form 990).</i>		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? <i>If "Yes," provide detail in Part VI.</i>		
b Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? <i>If "Yes," provide detail in Part VI.</i>		
c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? <i>If "Yes," provide detail in Part VI.</i>		
10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? <i>If "Yes," answer line 10b below.</i>		
b Did the organization have any excess business holdings in the tax year? <i>(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)</i>		

Part IV Supporting Organizations (continued)

	Yes	No
11 Has the organization accepted a gift or contribution from any of the following persons?		
a A person who directly or indirectly controls, either alone or together with persons described on lines 11b and 11c below, the governing body of a supported organization?		
b A family member of a person described on line 11a above?		
c A 35% controlled entity of a person described on line 11a or 11b above? <i>If "Yes" to line 11a, 11b, or 11c, provide detail in Part VI.</i>		
11a		
11b		
11c		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the governing body, members of the governing body, officers acting in their official capacity, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's officers, directors, or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove officers, directors, or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.</i>		
1		
2		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		
1		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
3 By reason of the relationship described on line 2, above, did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>

The Organization's endowment consists of a portion of their interest in the net assets of Avera Health Foundation. The Avera Health Foundation includes endowment funds which have been established for a variety of purposes. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments (if any,) are classified and reported based on the existence or absence of donor-imposed restrictions.

The organization's permanently restricted endowment funds are donor

Part XIII Supplemental Information (continued)

restricted. The organization currently does not have any board designated endowment funds.

The endowment fund calculation was changed in current year and all amounts for prior years have been updated to properly reflect the new calculation.

Part X, Line 2:

Avera Health and its sponsored organizations believe that they have appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the consolidated financial statements. The Organization would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

St. Benedict Hospital Inc.:

Part V, Section B, Line 5: A variety of individuals and groups of people were involved in the CHNA process from November 2021 through February 2022. Qualitative data was obtained from questionnaires and interviews with the Hutchinson County Community Health Nurse, Ministerial Association member, Trojen Den organizer, Parkston School District teacher and superintendent, local daycare provider, low-income patient, local business representative, American Legion Post 194 representative, and a Hutterite Colony boss. Each of these were chosen to represent a cross section of the community and to adequately assess the needs of underserved populations. A survey (electronic and paper) was completed by 98 community members.

St. Benedict Hospital Inc.:

Part V, Section B, Line 11: Avera St. Benedict conducted a community health needs assessment during FY2022. The CHNA committee discussed the health needs identified during the community health needs assessment and prioritized the needs based on the following criteria: estimated feasibility for the health care center to address the issue with current resources, importance the community placed on the need, burden, scope, severity, or urgency of the health need, and health disparities associated with the need.

Through the assessment process, the following needs were determined to be of highest priority:

*Cancer prevention screening

SUBSTANCE ABUSE/ALCOHOL USE PREVENTION

FY2023 Update:

Substance Abuse/Alcohol Education "Too Good for Drugs" is being provided by the Licensed Behavioral Health Counselor to the 5th grade class at the Parkston School District to educate on substance abuse and prevention. In addition, Avera St. Benedict continues to offer licensed behavioral health counseling and most recently began psychiatry outreach with Dr. Janice Gerlach every Monday.

The following health needs were identified but will not be addressed: lifestyle choices, poverty, and socioeconomic issues. As a health care organization, there are limits to what can be addressed regarding lifestyle choices, poverty, and socioeconomic issues. Due to feasibility, these issues will not be directly addressed.

St. Benedict Hospital Inc.:

Part V, Section B, Line 13h: Presumptive charity care may be applied in situations where all other avenues of financial assistance have been exhausted. The facility has the discretion to weigh extenuating circumstances when determining eligibility for and the amount of charity care to provide.

Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8, and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (for example, open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part I, Line 3c:

The methodology used to determine eligibility for financial assistance takes into consideration income, net assets, family size and resources available to pay for care. In addition, presumptive charity care may be applied in situations where all other avenues have been exhausted.

Part I, Line 6a:

The community benefit report is prepared by a related organization, Avera Health, and is available to the public at <https://www.avera.org/about/annual-report/>.

Part I, Line 7:

Charity care expense was converted to cost using an overall cost-to-charge ratio addressing all patient segments. Unreimbursed Medicaid was calculated using the costing methods to prepare the cost report. Subsidized health services were calculated based on a combination of the Medicare cost report and an overall cost-to-charge ratio for certain expenses. Other means tested government programs, community health

Part VI Supplemental Information (Continuation)

improvement services, health professions education, and cash and in-kind contributions are reported based on actual expenses recorded in the general ledger.

Part II, Community Building Activities:

Avera St. Benedict Health Center provided donations to various organizations to support activities as listed on Part II.

Part III, Line 2:

The amount on line 2 represents implicit price concessions. The Organization determines its estimate of implicit price concessions based on its historical collection experience with the respective class of patients and residents.

Part III, Line 4:

The footnote to the Organization's financial statements that describes implicit price concession is located in the audited financial statement report on pages 19 and 20.

Part III, Line 8:

Avera St. Benedict provides services to patients under the Medicare program knowing they may not recover all the costs associated with providing these services. Providing these services is essential to these patients and the community and increases their access to healthcare services. Therefore, in years the costs associated with services provided under the Medicare program are not completely covered, the Medicare shortfall is considered a community benefit.

Part VI Supplemental Information (Continuation)

Medicare allowable costs of care are based on the Medicare cost report.

The Medicare cost report is completed based on the rules and regulations set forth by Centers for Medicare and Medicaid Services.

Part III, Line 9b:

If the patient qualifies for the Organization's financial assistance policy for low-income, uninsured patients and is cooperating with the Organization with regard to efforts to settle an outstanding bill within current self-pay collection policy guidelines and timeframes, the organization or its agent shall not send, nor intimate that it will send, the unpaid bill to any outside collection agency. Avera organizations will allow all individuals 120 days from the first post discharge statement to apply for financial assistance before sending the uncollected account to an outside collection agency. Avera will provide the patient with a statement or final notice that contains a listing of the specific collection action(s) it intends to initiate, and a deadline after which they may be initiated no earlier than 30 days before action is initiated. If the patient qualifies for 100% charity care, no further bills will be sent. A letter will be sent instead indicating that the patient's bill has been completely forgiven.

Part VI, Line 2:

Community needs are evaluated and assessed on an on-going basis in several ways. ASBHC has completed formal "needs assessments" several times over the course of the past several years. This has been accomplished with input from focus groups, surveys, short- and long-range planning by the Health Center Board, demographic and health care data analysis, regular meetings with the provider staff, and collaboration with the local school

Part VI Supplemental Information (Continuation)

and churches, as well as local law enforcement.

Part VI, Line 3:

Uninsured patients who hold an inpatient status are counseled by a Patient Advocate to screen them for coverage eligibility and to assist in payer source enrollment. Those that are not eligible are provided a charity care application along with instructions on how to fill out the application. All patients receive statements that indicate who to contact should they need financial assistance. In addition, all patients receive a summary of financial assistance upon registration, as well as in their final statement. Should a patient contact Patient Financial Services and indicate inability to pay, they are transferred to a financial counselor to assist them with the financial assistance application process. Also, inpatient and same day surgery patients receive a brochure in their admissions packet. Pre-collection letters also include information regarding the financial assistance and uninsured programs.

Part VI, Line 4:

Avera St Benedict is a 25-bed critical access hospital in Parkston, South Dakota. The primary service area is defined as Hutchinson County, South Dakota, including the communities of Freeman, Menno, Olivet, and Tripp. Olivet is the county seat. Agriculture is the primary economic driver in the county. In calendar year 2020, Avera St. Benedict had 422 inpatient discharges, 59.48% of inpatient discharges were from Hutchinson County (2020 South Dakota Association of Healthcare Organization Inpatient Origin and Destination Study.) In fiscal year 2021, Hutchinson County produced 66% of total emergency department visits to Avera St. Benedict. According to the U.S. Census Bureau's 2020 data, the population of Hutchinson County

Part VI Supplemental Information (Continuation)

was just over 7,400 people and is predominately White/Caucasian (95%.) About 23% of the population is over the age of 65. County Health Rankings statistics assesses the unemployment rate of 3.1% compared with the state of South Dakota's 3.3% unemployment (2021.) County Health Rankings states that the median household income of Hutchinson County is \$59,300, which is about \$1,100 less than the state's average. The percentage of children in poverty in the county was projected at 17%, while about 9% of households being single parent households (2021.) County Health Rankings rates high school graduation rates in the county at 88% and adults with some post-secondary education at 73% (2021.) The secondary service area, including portions of Douglas, Davison, Bon Homme, Hanson, and Charles Mix Counties are demographically similar to Hutchinson County with rural, agricultural lifestyles. In calendar year 2020, 38.87% of inpatient discharges were from one of these five counties (2020 South Dakota Association of Healthcare Organization Inpatient Origin and Destination Study.) In fiscal year 2021, Douglas, Davison, Bon Homme, Hanson, and Charles Mix counties produced 25% of total emergency department visits to Avera St. Benedict. According to County Health Rankings and the US Census, Charles Mix County is different from the rest of the service area in that there is a 31.3% Native American population, median household income of \$50,481, more children in poverty (30%,) and children in single parent households (32%.) Avera St. Benedict is the primary medical provider for 8 Hutterian Brethren Colonies in the primary and secondary service area, which includes about 550 individuals.

Part VI, Line 5:

The Organization's governing body is comprised of volunteer members who reside in the community. The Board of Directors meets monthly and has

Part VI Supplemental Information (Continuation)

community representation that brings forward issues relative to challenges, needs, and services within the community. The local ministerial group meets monthly at the Hospital, and identifies needs and gaps within the parishioners they serve. The medical staff, including the physicians/mid-levels/department directors, have a monthly opportunity to meet and discuss ways to meet the needs of the community they serve. Surplus funds are reinvested in facilities to improve patient care. The Hospital operates an emergency room that is available to all, regardless of ability to pay.

ASBHC has a fitness center on campus that is available to help the community focus on wellness and prevention. This endeavor is subsidized by the facility to improve the health and well-being of the community as a whole. The chaplaincy mission services participate and spearhead many community projects including an angel tree at Christmas to address the needs of children in our service area. ASBHC also donates to the local food pantry. There are several other projects of this nature on a smaller scale at the local school system. ASBHC donates to community events such as American Cancer Society projects and sponsors health related educational programs to the community at large. Avera St. Benedict also provides medical, nursing, and other ancillary health professions the opportunity for hands on learning experiences through residencies, internships, clinical rotations, and other shadowing and profession mentoring programs to help with students' health care training needs.

Part VI, Line 6:

Avera is a sponsored ministry of the Benedictine and Presentation Sisters. The communities in which Avera operates all have unique health and

behalf of the governing body.

Form 990, Part VI, Section B, line 11b:

The Form 990 is prepared and reviewed by an independent accounting firm.

The Form 990 is then reviewed by the Avera Health VP of Financial Reporting and Tax Manager. After initial internal review, the Form 990 is made available to various members of Avera Health Executive Management, including the Avera Health CFO, President/CEO and COO. In addition, the Form 990 is made available to the Facility CEO, other Operation Finance Leaders and the Facility Board members.

Form 990, Part VI, Section B, Line 12c:

The conflict of interest policy covers board members, officers and key employees. At each board meeting, a request is made for all board members to disclose any potential conflict of interest pertaining to any item listed on the agenda or pertaining to any potential item that could be discussed during the course of the meeting. The declaration of conflict of interest is recorded in the meeting minutes. The board makes a determination of whether there is a conflict of interest and if so, implements the procedure for evaluating the issue or transaction involved. The board member or officer with the conflict must refrain from voting.

A statement of conflict of interest disclosure is made on an annual basis by officers and directors. The information is maintained in a database and a report is provided to the board.

Form 990, Part VI, Section B, Line 15a:

The President and CEO of Avera Queen of Peace, a related organization,

initiates the annual review for the CEO. He sends out evaluation forms to the board of St. Benedict's. Comparative data from Avera Health System is used to develop a recommended compensation structure. The analysis and recommendation is completed by a System compensation consultant who has access to multiple salary survey results and uses the predominant factors of FTE, revenue, and operating expenses to benchmark the position to similar healthcare organization data. The compensation for the CEO is approved by Avera St. Benedict's board. This is done on an annual basis, usually in January. The CFO-Avera Health is compensated by Avera Health. Annually the Compensation Committee of Avera Health, which is comprised of six (6) System Members appointed by the Religious Orders, meets with an independent consultant regarding fair market value of officers and key employees. The Compensation Committee approves all salaries based on comparable data and documents the basis for their decision in meeting minutes.

Form 990, Part VI, Section C, Line 19:

The organization's governing documents and conflict of interest policy are not made available to the general public. The organization's financial statements are attached to the Form 990 per IRS instructions and therefore available to the general public.

Independent Auditor's Report

The Board of Directors
Avera Health
Sioux Falls, South Dakota

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Avera Health, which comprise the consolidated balance sheets as of June 30, 2023 and 2022, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Avera Health as of June 30, 2023 and 2022, and the consolidated results of its operations, changes in net assets, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Avera Health and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Avera Health's ability to continue as a going concern for one year after the date that the consolidated financial statements are issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Avera Health's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Avera Health's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Consolidating Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary consolidating information is presented for the purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Note 1 - Organization and Significant Accounting Policies

Organization

Avera Health (the Organization), a sponsored ministry of the Benedictine Convent of the Sacred Heart of Yankton, South Dakota (OSB) and Sisters of the Presentation of the Blessed Virgin Mary of Aberdeen, South Dakota, (PBVM), is a health ministry based in Sioux Falls, South Dakota.

Avera Health owns, sponsors, and operates hospital and health care facilities in the Dakotas, Iowa, Nebraska, and Minnesota. Generally, the sponsored organizations are exempt from federal and state income taxes. These organizations provide a variety of health care related activities and other benefits to the communities in which they operate. Health care services include inpatient, outpatient, sub-acute, home-based care, long-term care, clinical, and telemedicine services.

Avera Health is a health ministry rooted in the Gospel. The mission of Avera Health is to make a positive impact in the lives and health of persons and communities by providing quality services guided by Christian values. The Organization operates with a vision to improve the health care of the people it serves through a regionally integrated network of persons and institutions.

As part of a system-wide corporate financing plan, Avera Health established an Obligated Group to access the capital markets and make loans to its members. Obligated Group members are jointly and severally liable for the long-term debt outstanding under the Master Trust Indenture. The Obligated Group's net assets without donor restrictions represent approximately 97% of the consolidated net assets without donor restrictions of Avera Health as of June 30, 2023 and 2022.

Principles of Consolidation

The consolidated financial statements for the years ended June 30, 2023 and 2022 include the accounts of the Organization and the following sponsored organizations and controlled subsidiaries. Significant intercompany balances and transactions have been eliminated in the consolidated financial statements.

- Avera Health Plans, Inc.
- Accounts Management, Inc. (75% owned subsidiary)
- Avera Property Insurance, LLC
- South Dakota State Medical Holding Company, Inc. d/b/a Dakotacare and Subsidiary (Dakotacare Administrative Services Inc.)

Accountable Care Organization (ACO) Participation

Avera Health participates in Medicare Shared Savings ACO programs. Avera Health and its Obligated Group member affiliates control each of the ACO organizations through a majority or 100% ownership interest. The organizations controlled by Avera Health include the following:

- Caravan Health ACO 15 LLC d/b/a Prairie Vista Care Organization
- Caravan Health ACO 41 LLC d/b/a Prairie View Care Organization

Shared savings realized by Avera Health have not been material in their initial years of participation. Beginning July 1, 2019, the Organization began participation in risk-sharing under their ACO participation. Prior to that time, there was no downside revenue risk with the Avera ACO programs.

Income Taxes

Avera Health and most of its sponsored organizations are considered nonprofit corporations as described in Section 501(c)(3) of the Internal Revenue Code and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Internal Revenue Code. These organizations are required to file a Return of Organization Exempt from Income Tax (Form 990) with the Internal Revenue Service (IRS). Avera Health and certain sponsored organizations also file an Exempt Organization Business Income Tax Return (Form 990T) with the IRS to report their unrelated business taxable income.

Avera Health and its sponsored organizations believe that they have appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the consolidated financial statements. The Organization would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Certain consolidated entities are subject to federal income taxes. Deferred income tax assets and liabilities are recognized for the differences between the financial and income tax reporting basis of assets and liabilities based on enacted tax rates and laws. Deferred tax assets and liabilities are not material as of June 30, 2023 and 2022. The Organization paid an immaterial amount of federal and state income taxes for the years ended June 30, 2023 and 2022.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less, excluding assets limited as to use.

Receivables

Patient and resident receivables and other receivables are uncollateralized customer and third-party obligations. Other receivables include amounts due from customers for managed and professional services, retail operations, health insurance, and other ancillary business lines. The Organization generally does not charge interest on delinquent receivables. Payments of receivables are allocated to the specific claims identified on the remittance advice, or, if unspecified, are applied to the earliest unpaid claim. The Organization's patient and other receivable balances were \$270,035 and \$109,073 as of July 1, 2021.

Patient and resident accounts receivable are stated net of any explicit and implicit price concessions and then further reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Organization analyzes accounts for adverse changes in a patient's, third-party payor's, or customer's ability to pay that may have occurred subsequent to recognition. Other receivables are recorded net of allowances for doubtful accounts of \$1,383 and \$1,788 as of June 30, 2023 and 2022. Management regularly reviews specific data about receivable balances and its past history with similar cases to estimate the appropriate allowance for doubtful accounts and provision for bad debts.

The Organization has not adjusted the promised amount of consideration from patients, residents, and third-party payors for the effects of a significant financing component due to the Organization's expectation that the period between the time the service is provided to a patient and the time that the patient, resident, or third-party payor pays for that service will be one year or less. However, the Organization does, in certain instances, enter into payment arrangements with patients and residents that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

Supplies

Supplies are generally valued at lower of cost (first-in, first-out) or net realizable value.

Investments and Investment Income

Investments with readily determinable market values are stated at fair value. The fair value of all debt and equity securities with readily determinable fair values are based on quotations obtained from national and foreign securities exchanges. Certificates of deposit are recorded at historical cost, plus accrued interest. The Organization has adopted the fair value election which permits entities to choose to measure many financial instruments and certain other items at fair value. Investment income or loss (including interest income, dividends, net changes in unrealized gains and losses, and net realized gains and losses) is included in the performance indicator unless the income or loss is restricted by donor or law. Investment income on funds held under indenture agreements and board designated insurance reserves is recorded as other operating revenue while all other investment income is recorded as nonoperating revenue in the consolidated statements of operations.

The Organization has a portion of its holdings in alternative investments, which are not readily marketable. These alternative investments include partnerships and other interests that invest in multi-strategy funds, collective investment funds, private equity funds, hedge funds, private debt funds, and real asset funds, among others. Many of these alternative investments have fair values that are determined using the net asset value (NAV) provided by the investment manager. NAV is a practical expedient to determine the fair value of investments that do not have readily determinable fair values and prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. Certain alternative investment holdings in real estate and private equity are carried at cost or under the equity method if fair value measures are not easily determinable.

Assets Limited as to Use

Assets limited as to use include designated asset reserves set aside by governing Boards for operating reserves, future capital improvements, debt redemption, and other purposes over which the Boards retain control and may at their discretion subsequently use for other purposes; assets held as designated capital surplus reserves for the Organization's health insurance companies; assets donated for endowment or other specific purposes; assets held by a trustee under indenture agreements or restricted under contractual agreements; and assets held by foundations and trusts. Assets limited as to use that are available for obligations classified as current liabilities are reported in current assets.

Physician Notes Receivable and Guarantees

Certain consolidated entities have entered into notes receivable and guaranteed salary commitments with certain physicians. These contracts are limited in duration and serve the purpose of recruiting new physicians and ensuring access to physician service in the Organization's operations. Notes receivable with physicians totaling approximately \$20,309 and \$20,446 at June 30, 2023 and 2022 are recorded as other accounts receivable and noncurrent receivables in the consolidated balance sheets. Assets recorded for the value of future physician services under guarantee arrangements are recorded as other current and noncurrent receivables. Liabilities recorded in connection with guaranteed salary commitments are included with other current and noncurrent liabilities in the consolidated balance sheets.

Contributions Receivable

Unconditional promises to give are reported at net realizable value if at the time the promise is made payment is expected to be received in one year or less. Unconditional promises to give, less an allowance for estimated uncollectible amounts, are recorded as contributions receivable and net assets with donor restrictions in the year the promise is made, unless the donor explicitly states that the gift is to support current activities. Unconditional promises that are expected to be collected in more than one year are reported at fair value initially and in subsequent periods because the Organization has elected that measure in accordance with the fair value option under accounting principles. Management believes that the use of fair value reduces the cost of measuring unconditional promises to give in periods subsequent to their receipt and provides equal or better information to users of its consolidated financial statements than if those promises were measured using present value techniques and historical discount rates. Contribution receivables are included in other current and noncurrent receivables in the consolidated balances sheets.

Fair Value Measurements

The Organization has determined the fair value of certain assets and liabilities in accordance with generally accepted accounting principles, which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Property and Equipment

Property and equipment acquisitions are recorded at cost. The Organization and its consolidated affiliates have generally adopted policies with \$5,000 (not in thousands) as the minimum threshold to determine whether assets will be capitalized. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. Equipment under finance lease obligations is amortized using the straight-line method over the shorter of the lease term or estimated useful life of the equipment. Amortization is included in depreciation and amortization in the consolidated financial statements. The estimated useful lives of property and equipment are as follows:

Land improvements	3-25 years
Buildings, improvements, and rental property	5-100 years
Equipment	3-20 years

Gifts of long-lived assets, such as land, buildings, or equipment are reported as additions to net assets without donor restrictions and are excluded from the performance indicator unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Interest cost is capitalized as part of the cost of constructing capital assets, net of any interest income earned on unexpended bond proceeds borrowed for a specific project, during the construction period. The Organization capitalizes the direct costs, including internal costs, associated with the implementation of new information systems for internal use. Capitalized amounts are amortized over the estimated lives of the related assets.

Investments in Affiliated Organizations

Investments in entities in which the Organization has the ability to exercise significant influence over operating and financial policies but does not have operational control are recorded under the equity method of accounting. Under the equity method, the initial investment is recorded at cost and adjusted to recognize the Organization's share of earnings and losses of those entities, net of any additional investments or distributions. The Organization's share of net earnings or losses of the entities is included in other operating revenue. Investments in affiliated organization that do not meet the requirements under the equity method of account and without readily determinable fair values are measured at cost minus impairment (if any) and adjusted for any observable price changes in orderly transactions of identical securities or similar securities of the same issuer. Distributions from investments in affiliated organizations recorded at cost are recorded as non-operating income.

Goodwill

Goodwill represents the excess of cost over the fair value of assets acquired from business acquisitions. On an annual basis and at interim periods when circumstances require, the Organization tests the recoverability of its goodwill. The Organization recognizes an impairment charge for the amount by which the carrying amount of goodwill exceeds its fair value. The Organization recorded no goodwill impairment losses for the years ended June 30, 2023 and 2022.

Intangible Assets

Intangible assets consist of patient records, non-compete agreements, and patents associated with business acquisitions. Intangible assets are amortized over their estimated economic life which range from 5 to 20 years. Intangible assets are considered annually for indicators of impairment. There were no intangible asset impairment losses recognized for the years ended June 30, 2023 and 2022.

Impairment of Long-Lived Assets

Avera Health considers whether indicators of impairment are present and performs the necessary analysis to determine if the carrying value of the asset is appropriate. There were no long-lived asset impairment losses recognized for the years ended June 30, 2023 and 2022.

Estimated Malpractice Costs, Health Insurance and Workers' Compensation

Avera Health has established self-insurance programs for the majority of its employee health and dental insurance, workers' compensation benefits for employees, and for professional and general liability risks. Annual self-insurance expense under these programs is based on past claims experience and projected losses. Actuarial estimates of uninsured losses for each program at June 30, 2023 and 2022 have been accrued as liabilities and include an estimate of the ultimate costs for both reported claims and claims incurred but not reported. Avera Health also has insurance coverage in place for amounts in excess of the self-insured retention for workers' compensation and professional and general liabilities.

Noncontrolling Interest

The accompanying consolidated financial statements reflect the adoption of accounting guidance requiring that noncontrolling interests in subsidiaries be reported as net assets in the consolidated financial statements. The guidance also requires that net income attributable to the parent and noncontrolling interests be clearly identifiable; that changes in a parent's ownership interest be accounted for as equity transactions; and that disclosures be expanded to clearly identify and distinguish between the interest of the parent and interests of the noncontrolling owners.

The changes in consolidated net assets without donor restrictions attributable to the Organization's controlling interest and noncontrolling interests for the years ended June 30, 2023 and 2022 are as follows:

	Net Assets without Donor Restrictions		
	Controlling Interest	Noncontrolling Interests	Total
Balance, July 1, 2021	\$ 2,154,453	\$ 32,057	\$ 2,186,510
Revenue less than expenses	(48,275)	(548)	(48,823)
Distributions to noncontrolling interests	-	(4,465)	(4,465)
Reclassification of accumulated losses on interest rate swaps	366	-	366
Grants and contributions restricted for capital purposes	10,784	-	10,784
Net assets released from restrictions for purchases of property and equipment	2,705	-	2,705
Other changes in net assets	(2,621)	(52)	(2,673)
Balance, June 30, 2022	2,117,412	26,992	2,144,404
Revenue in excess of expenses	98,652	(745)	97,907
Distributions to noncontrolling interests	-	(1,516)	(1,516)
Reclassification of accumulated losses on interest rate swaps	346	-	346

Net assets released from restrictions for purchases of property and equipment	5,939	-	5,939
Adjustments to the funded status of pension plans	(142,722)	-	(142,722)
Other changes in net assets	(2,097)	(40)	(2,137)
Balance, June 30, 2023	<u>\$ 2,087,179</u>	<u>\$ 24,691</u>	<u>\$ 2,111,870</u>

Net Assets with Donor Restrictions

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Patient and Resident Service Revenue

Patient and resident service revenue is reported at the amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing patient and resident care. These amounts are due from patients or residents, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Organization bills the patients or residents and third-party payors several days after the services are performed and/or the patient or resident is discharged from the facilities. Revenue is recognized as performance obligations are satisfied. Amounts received before recognition are reported as a contract liability.

Performance obligations are determined based on the nature of the services provided by the Organization. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Organization believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patient care in the hospital and clinic settings and residents receiving skilled nursing services. The Organization measures the performance obligation associated with inpatient acute services from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. The Organization measures the performance obligation for outpatient and medical clinic services over the patient encounter, which is generally short in duration. The Organization measures the performance obligation associated with residents receiving skilled nursing services from the beginning of the performance period, generally admission or the beginning of the month, to the sooner of completion of services to that resident, discharge or the end of the month. Revenue for performance obligations satisfied at a point in time is recognized when goods or services are provided, and the Organization does not believe it is required to provide additional goods or services to the patient or resident.

Because all of its performance obligations relate to contracts with a duration of less than one year, the Organization has elected to not disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services or skilled nursing services to residents at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged or for residents, the sooner of completion of services, discharge or the end of the month, which generally occurs within days or weeks of the end of the reporting period.

The Organization determines the transaction price based on standard charges for goods and services provided, reduced by contractual price concessions provided to third-party payors, discounts provided to uninsured patients and residents in accordance with the Organization's policy, and/or implicit price concessions provided to uninsured patients and residents. The Organization determines its estimates of contractual price concessions and discounts based on contractual agreements, its discount policies and historical experience applied to a portfolio of accounts. The Organization determines its estimate of implicit price concessions based on its historical collection experience with the respective class of patients and residents.

Settlements with third-party payors for retroactive adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Organization's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews and investigations. The Organization had estimated third-party payor settlements payable of \$25,662 as of July 1, 2021.

Consistent with the Organization's mission, care is provided to patients and residents regardless of their ability to pay. Therefore, the Organization has determined it has provided implicit price concessions to uninsured patients and residents and patients and residents with other uninsured balances (for example, co-pays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and residents and the amounts the Organization expects to collect based on its collection history with those patients and residents.

Premium Revenue

Premium revenue represents gross premiums earned in the year for which services are covered for employer groups and individual members. Premiums are recognized in the contractual coverage period in which members are entitled to receive services. Premiums received in advance of a coverage period are deferred and recorded as other current liabilities. When the expected claim payments and administrative expenses exceed the premiums to be collected for the remainder of the contract period, a premium deficiency reserve is recorded for the deficiency, with a corresponding charge to operations. A premium deficiency reserve of approximately \$3,059 and \$10,600 was included in other current liabilities as of June 30, 2023 and 2022.

Other Operating Revenues

Other revenue is recognized at an amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing goods and services. The amounts recognized reflect consideration due from customers, third-party payors, and others. Primary categories of other revenue include income from joint ventures, retail pharmacy and other retail revenue, cafeteria revenue, certain facility rent and lease revenue, and other.

Charity Care and Community Benefit

The Organization provides health care services to patients who meet certain criteria under its charity care policy without charge or at amounts less than established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. Total direct and indirect costs related to these foregone charges were approximately \$24,753 and \$23,191 at June 30, 2023 and 2022, which was determined based on an average ratio of cost to gross charges or underlying cost accounting records related to the services provided.

The Organization also provides community benefit health activities at less than or at no cost to support those in the area served. These activities include, but are not limited to, community education and health services, health professionals' education, subsidized services, cash and in-kind donations to community organizations, health research, and community building activities. For the years ended June 30, 2023 and 2022, specific examples include free health clinic services, diabetes education and management programs; ASK A NURSE health information services; clinical settings for resident physicians and nursing, radiology, and pharmacy students; community blood bank partnerships; subsidized emergency transportation; medication, transportation and lodging support for needy patients and families; community screenings; and clinical research.

Performance Indicator

Revenues in excess of (less than) expenses is the performance indicator and excludes changes in interest in net assets of foundations and trusts related to distributions for capital expenditures or donor-restricted purposes, changes in the net assets attributable to noncontrolling interests, changes in the fair value of effective interest rate swap hedges, transfers of assets to and from related parties for other than goods and services, and grants and contributions restricted for capital purposes, including assets acquired using contributions which were restricted by donors.

Donor-Restricted Gifts

The Organization reports contributions restricted by donors as increases in net assets without donor restrictions if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to assets without donor restrictions and reported in the consolidated statements of changes in net assets as net assets released from restrictions.

Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met.

Market Risk

The Organization's policy for managing risk related to its exposure to variability in interest rates and other relevant market rates and prices include consideration of entering into derivative instruments (freestanding derivatives), or contracts or instruments containing features or terms that behave in a manner similar to derivative instruments (embedded derivatives) in order to mitigate its risks. The Organization recognizes all derivatives as either assets or liabilities in the consolidated balance sheets and measures those instruments at fair value.

Advertising Costs

The Organization expenses advertising costs as they are incurred. During the years ended June 30, 2023 and 2022, advertising expenses were \$11,927 and \$10,619.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in Note 14, which presents the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

The consolidated financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, such as depreciation, interest, and other occupancy costs, and certain employee benefit costs are allocated to a function based on square footage, usage, salaries or other methods.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated financial statements to maintain consistency between periods presented. The reclassifications had no impact on previously reported net assets.

Accounting Pronouncements

In June 2016, the FASB issued Accounting Standards Update (ASU) 2016-13, *Financial Instruments - Credit Losses* (Topic 326). This guidance is intended to align the needs of the users of financial statements related to credit loss recognition and also addresses the potential weakness from the delayed recognition of credit losses, resulting in an overstatement of assets. The amendments replace the current incurred loss methodology, which delays recognition until it is probable a loss has occurred, with one that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. This guidance was effective for the Organization beginning July 1, 2023. The adoption of this guidance did not materially impact the Organization's financial position, or results of operations, but may require additional disclosures.

In October 2021, the FASB issued ASU 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*. This guidance was issued to address the inconsistency in accounting related to recognition of an acquired contract liability and the payment terms and their effect on subsequent revenue by the acquirer. The amendments in this update require that the acquirer recognize, and measure contract assets and contract liabilities acquired in a business combination in accordance with Topic 606, as if it had originated the contracts, generally consistent with how they were recognized and measured in the acquiree's financial statements. This guidance is effective for the Organization beginning July 1, 2024. The Organization will apply this guidance in consideration of any future business combinations that may occur on or after July 1, 2024.

Note 2 - Liquidity and Availability

To efficiently manage liquidity and capital, Avera Health continually determines the necessary amount of funds to hold in cash and cash equivalents to meet operational needs. Cash in excess of daily operating requirements is generally invested in board designated operating or other reserve accounts to generate higher yielding returns while preserving high liquidity and capital preservation.

A reconciliation to arrive at financial assets available for general expenditure within one year of the balance sheet date is summarized in the following table as of June 30:

	<u>2023</u>	<u>2022</u>
Cash and cash equivalents	\$ 83,029	\$ 143,879
Assets limited as to use	1,473,748	1,473,067
Receivables - current	402,409	374,015
Custodial funds held for uncontrolled affiliates	57,873	61,095
Deferred compensation	<u>97,613</u>	<u>83,376</u>
 Total financial assets	 2,114,672	 2,135,432
 Less amounts not available to be used within one year		
Donor restricted endowment corpus	(11,694)	(11,170)
Assets under indenture and contractual agreements	(66,602)	(59,500)
Illiquid investments	(26,623)	(25,582)
Custodial funds held for uncontrolled affiliates	(57,873)	(61,095)
Funds held in trust for deferred compensation	<u>(97,613)</u>	<u>(83,376)</u>
	<u>\$ 1,854,267</u>	<u>\$ 1,894,709</u>

Avera Health has certain donor-restricted assets limited as to use which are available for general expenditure within one year in the normal course of operations. Avera Health also has assets limited as to use under indenture and contractual agreements that are available for debt service or capital expenditure that are expected to be used within one year of the balance sheet date, but Avera Health has concluded these are not available for general expenditure based on their restricted uses. Accordingly, these assets have been excluded in the liquidity totals above.

A portion of Avera Health's investment portfolio is invested in alternative investments that are not liquid within one year. Avera has other financial assets that are not considered available for general obligations within one year which include assets held under indenture and contractual arrangements that are not available or not expected to be used in the next year, endowment funds to be held in perpetuity, custodial funds held for uncontrolled affiliates, and investments held in trust designated for deferred compensation arrangements.

Note 3 - Patient and Resident Revenue

The Organization has agreements with third-party payors that provide for payments to the Organization at amounts different from established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare - PPS: Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per visit. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. The Organization is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Organization and audits thereof by the Medicare Administrative Contractor.

Medicare - CAH: Several of the Organization's consolidated subsidiaries are licensed as Critical Access Hospitals (CAH). These hospitals are reimbursed for most inpatient and outpatient services on a cost-based methodology with final settlement determined after submission of annual cost reports by the hospitals and are subject to audits thereof by the Medicare Administrative Contractor.

Medicaid: Inpatient acute care services rendered to Medicaid program beneficiaries are generally paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Clinical and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a prospective payment reimbursement methodology. There are generally no retroactive settlements resulting from the Medicaid program.

Wellmark Blue Cross: Services rendered to Wellmark Blue Cross subscribers are reimbursed under prospectively determined percentage of charges and fixed payment rate methodologies.

Nursing Home – Medicare and Medicaid: The Organization is reimbursed for nursing home resident services to Medicaid beneficiaries at established billing rates which are determined on a cost-related basis subject to certain limitations as prescribed by the South Dakota Department of Social Services and Minnesota Department of Human Services regulations. These rates are subject to retroactive adjustment by field audit. Under the Medicare program, payment for resident services is made on a prospectively determined per diem basis. The per diems vary according to a patient driven or resource-based resident classification system which is used to identify prospective payment for each resident.

Clinics: The Organization is reimbursed for most services provided in its clinics under the respective payer's fee schedules. Clinic services provided to Medicare beneficiaries that are licensed as rural health clinics are reimbursed at cost, while clinics recognized as provider-based clinics by Medicare receive a technical (hospital) and professional payment from Medicare.

The Organization also entered into payment agreements with certain commercial and managed care insurance carriers and other organizations. The basis for payment to the Organization under these agreements includes prospectively determined rates and discounts from established charges.

Laws and regulations governing the Medicare, Medicaid, and other programs are extremely complex and subject to interpretation. As a result, there is an ongoing level of uncertainty relative to the estimated liability for prior period cost reports. There is a reasonable possibility that recorded estimates will change by a material amount in the near term. Patient and resident service revenue for the years ended June 30, 2023 and 2022 increased approximately \$5,000 and \$6,800 due to the removal of allowances previously estimated that are no longer necessary as a result of final settlements and years that are no longer subject to audits and reviews.

Generally, patients and certain residents who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Organization also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. The Organization estimates the transaction price for patients and residents with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions.

The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts and implicit price concessions based on historical collection experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient and resident service revenue in the period of the change. The ability to estimate the collectability of uninsured and other self-pay patients is contingent on the patient's ability or willingness to pay for the services provided. Subsequent changes that are determined to be the result of an adverse change in the patient's and resident's ability to pay are recorded as provision for bad debts. The provision for bad debts for the years ended June 30, 2023 and 2022 was not significant.

The composition of patient and resident service revenue by payor for the years ended June 30, 2023 and 2022 is as follows:

	<u>2023</u>	<u>2022</u>
Medicare	\$ 845,081	\$ 801,596
Medicaid	176,309	180,514
Blue Cross	544,798	523,033
Commercial insurance	576,937	533,781
Other third-party payors, patients and residents	<u>174,626</u>	<u>166,256</u>
	<u>\$ 2,317,751</u>	<u>\$ 2,205,180</u>

Contract Liability – Medicare Advanced Payments

The contract liability for Medicare advanced payments consists of advanced payments received from the Centers for Medicare & Medicaid Services (CMS), in order to increase cash flow for Medicare Part A and B providers who were impacted by the COVID-19 pandemic. Avera Health received \$230,497 in advanced payments during the year ended June 30, 2020, which was to be recouped through reductions to payments for future Medicare claims. Recoupment of the remaining amounts received under this program began during the year ended June 30, 2021, one year after Avera Health affiliates received the advanced payments, and outstanding balances are currently not required to be paid in full for 29 months from the date the first payment under the program was received, at which time interest would accrue at 4% of the outstanding balance. Avera Health repaid \$3,326 and \$14,263 of the Medicare advanced payments during the years ended June 30, 2023 and 2022, respectively, and there are no remaining amounts to be recouped under the program as of June 30, 2023.

Alternative Investments

Alternative investments include limited partnerships, limited liability corporations, and off-shore investment funds investing in multi-strategy, debt, private equity, hedging, and real asset portfolios. Included in the alternative investments are certain types of financial instruments including, among others, future and forward contracts, options, and securities sold not yet purchased, intended to hedge against changes in the market value of investments. These financial instruments, which include varying degrees of off-balance-sheet risk, may also contain elements of credit risk including, but not limited to, limited liquidity, absence of oversight, dependence upon key individuals, emphasis on speculative investments (both derivatives and non-marketable investments), and nondisclosure of portfolio composition. See Note 1 for more information on the accounting policy for these investments.

Avera Health's policy is to recognize transfers to or from Levels 1, 2, or 3 within the fair value hierarchy as of the beginning of the period. There were no significant transfers to or from Levels 1, 2, or 3 during 2023 and 2022.

The Level 2 and 3 instruments listed in the fair value hierarchy tables above use the following valuation techniques and inputs.

For marketable securities such as U.S. and foreign government securities, U.S. and foreign corporate bonds, U.S. and foreign equity securities, and other fixed income securities, in the instances where identical quoted market prices are not readily available, fair value is determined using quoted market prices and/or other market data for comparable instruments and transactions in establishing prices, discounted cash flow models and other pricing models. These inputs to fair value include industry-standard valuation techniques such as the income or market approach. Avera Health classifies all such investments as Level 2.

The fair value of liabilities for interest rate swap agreements classified as Level 2 is determined using an industry standard valuation model, which is based on a market approach. A credit risk spread (in basis points) is added as a flat spread to the discount curve used in the valuation model. Each leg is discounted and the sums of the difference between the present value of the cash flow of each leg equals the market value of the swap.

Fair values of contribution receivables and contribution commitments are based on the present value of the contribution commitments made and contribution receivables from the date of the promise to give to when the contribution is expected to be received. The fair values of physician guarantees are determined based on estimated future cash flows. Avera Health classifies these assets and liabilities as Level 3.

Investments Valued at Net Asset Value

The Organization determines the carrying amount of certain investments such as multi-strategy funds, collective investment funds, institutional mutual funds, private equity funds, hedge funds and real asset funds, using the calculated net asset value ("NAV") provided by the fund, an acceptable practical expedient. The net asset value is determined based on the fair value or estimated fair value of each of the underlying investments held in the fund. The fund or investment managers typically value underlying securities traded on a national securities exchange or reported on a national market at the last reported sales price on the day of the valuation. Underlying securities traded in the over-the-counter market and listed securities for which no sale was reported on the valuation date are typically valued at the mean between representative bids and ask quotes obtained. Where no fair value is readily available, the fund or investment manager may determine, in good faith, the fair value using models that take into account relevant information considered material. Real asset investments are priced using valuation techniques that include income, market, and cost approaches. Significant inputs include contract and market rents, operating expenses, capitalization rates, discount rates, sales of comparable properties, and market rent growth trends, as well as the use of the value of property plus the cost of building a similar structure of equal utility.

The following table and explanations identify attributes relating to the nature and risk of investments carried at NAV as of June 30, 2023:

(A) This category includes funds that employ a multi-strategy approach in managing the fund; capital is allocated amongst a diverse industry base, employing a broad range of strategies. Strategies include, but are not limited to convertible and derivative investing, risk arbitrage and event driven investing, energy investing, yield and credit related investing, private placements and private investments, debt portfolios, distressed investing, quantitative trading, reinsurance and risk-linked investing, fixed-income trading, structured finance, global macro trading, long/short investing, and special investments. Redemptions from certain funds in this category have been suspended as the funds are currently in the process of liquidating.

(B) This category includes several private equity funds focused primarily on investing in a diversified portfolio of limited partnerships, limited liability companies, and private REITs, or similar entities that will be focused on Value Added opportunities in the acquisition, development, redevelopment, operation, and management of commercial real estate properties. There are limited provisions for redemptions during the life of these funds. Distributions from each fund will be received as the underlying investments of the funds wind down over expected future periods.

Fair Value of Financial Instruments

The Organization annually evaluates its financial instruments that are reflected at cost in the financial statements to consider their fair values. The Organization has generally evaluated the fair value of these financial instruments using Level 2 inputs under the fair value hierarchy. The Organization considers the carrying amount of significant classes of financial instruments on the consolidated balance sheets, including cash and equivalents, receivables, assets limited as to use with readily determinable market values, other assets, accounts payable, due to other organizations, other long-term liabilities, and variable rate long-term debt to be reasonable estimates of fair value either due to their length of maturity or the existence of variable interest rates underlying such financial instruments that approximate prevailing market rates at June 30, 2023 and 2022.

The Organization's fixed rate long-term debt, including current portion, has a carrying amount that differs from its estimated fair value. The fair value of the Organization's fixed rate long-term debt is estimated using discounted cash flow analyses, based on the Organization's effective borrowing rates at respective reporting dates for similar types of arrangements. The carrying value of the Organization's fixed rate debt is \$511,817 and \$535,599 as of June 30, 2023 and 2022. The fair value of the Organization's fixed rate debt is estimated to be \$502,053 and \$533,562 as of June 30, 2023 and 2022.

Note 6 - Property and Equipment

A summary of property and equipment is as follows:

Substantially all of the Obligated Group's assets and revenues as of June 30, 2023 and 2022 are pledged as collateral for debt obligations. Various debt agreements of the Organization contain certain restrictive covenants, including the maintenance of specific financial ratios and liquidity measures.

Debt issuance costs and bond discounts and premiums are amortized over the period the related obligation is outstanding using the effective interest method. Amortization is included in interest expense in the consolidated financial statements and does not have a significant impact on the effective interest rates of the related debt issues.

Under the terms of the loan agreements for the revenue bonds, the Organization and its consolidated affiliates are required to maintain certain deposits with trustees. Such deposits are included with assets limited as to use in the consolidated financial statements. Assets that are available for obligations classified as current liabilities are reported in current assets. The loan agreements also place limits on the incurrence of additional borrowings and requires that the Organization satisfy certain measures of financial performance as long as the bonds are outstanding.

Obligated Group

As described in Note 1, the Avera Health Obligated Group (Obligated Group) was created to access the capital markets and make loans to its members. Obligated Group members are jointly and severally liable for the long-term debt outstanding under the Master Trust Indenture.

Lines of Credit

A consolidated subsidiary of the Organization has a \$3,500 working capital line of credit provided by a mortgage lender, and is subject to the interest rate, covenants, guarantee and collateral of the real estate loan. The line of credit expires in April 2028. No amounts were outstanding under this line of credit at June 30, 2023 and 2022.

Standby Letter of Credit

In connection with its participation in a risk-bearing ACO model as discussed in Note 1, the Organization was required by the Centers for Medicare and Medicaid Services to enter into a standby letter of credit arrangement. As of June 30, 2023, the Organization has a standby letter of credit with a financial institution of \$2,330, with a scheduled expiration of December 31, 2023. No amounts were outstanding under this letter of credit at June 30, 2023 and 2022.

Note 10 - Interest Rate Swaps

In accordance with its market-risk policy, the Organization has developed a risk management strategy to maintain acceptable levels of exposure to the risk of changes in future expected variable cash flows resulting from interest rate fluctuations. As part of this strategy, the Organization has entered into the following interest rate swap agreements:

Reference	Maturity Date	Notional Amount	Organization Pays	Organization Receives	Fair Value

The Organization originally entered into these swaps to convert variable rate debt to synthetic fixed rate debt in order to offset the variability of the overall cash flows caused by market changes on a portion of their variable rate debt exposure.

Effective July 1, 2009, the Organization elected to discontinue the designation of Swap A and Swap B as cash flow hedges. The net unrealized loss on the date of hedge accounting discontinuance of \$9,702 is being prospectively reclassified into the performance indicator as future interest payments are made over the remaining term of the swap agreements. For the years ended June 30, 2023 and 2022, \$346 and \$366 was reclassified into the performance indicator in relation to the hedge discontinuance. The aggregate fair value of the swap agreements was recorded as a long term liability of \$2,587 and \$4,786 as of June 30, 2023 and 2022. The change in fair value of \$2,199 and \$4,613 was recorded to the performance indicator for the years ended June 30, 2023 and 2022.

The following table summarizes the derivative transactions reflected in the consolidated balance sheets and consolidated statements of operations for the years ended June 30, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Long-term Liability		
Fair value of interest rate swap agreements	\$ (2,587)	\$ (4,786)
Revenues in Excess of (less than) Expenses		
Change in fair value of interest rate swaps not designated as hedging instruments	2,199	4,613
Reclassification of accumulated losses on interest rate swaps	(346)	(366)
Interest expense	550	1,612
Other Changes in Net Assets		
Reclassification of accumulated losses on interest rate swaps	346	366

Note 11 - Net Assets with Donor Restrictions

Net assets with donor restrictions are restricted for the following purposes or periods at June 30, 2023 and 2022:

	2023	2022
Subject to expenditure for a specific purpose		
Various health care programs and capital projects, including hospice, cancer care, various regional operations, and others	\$ 52,116	\$ 50,391
Endowments		
Earnings subject to appropriation and expenditure		
Various health care programs and services	3,961	5,816
Investments to be held in perpetuity, the income from which is expendable to support various health care program services	11,694	11,170
	\$ 67,771	\$ 67,377

Net assets released from restrictions for operating purposes were \$5,438 and \$9,172 for the years ended June 30, 2023 and 2022, and are included in other operating revenues in the consolidated statements of operations. Net assets released from restrictions for capital purposes were \$5,939 and \$2,705 for the years ended June 30, 2023 and 2022, and were recorded as other changes in net assets.

Endowments

The Organization's endowment assets consist of individual funds established by donors to provide funding for specific activities and general operations. Endowment assets also includes certain net assets without donor restrictions designated for quasi-endowment by the Board of Directors. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Avera Health's Board of Directors has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, unless there are explicit donor stipulations to the contrary. At June 30, 2023 and 2022, there were no such donor stipulations. As a result of this interpretation, the Organization retains in perpetuity (a) the original value of initial and subsequent gift amounts (including contributions receivable net of discount and allowance for doubtful accounts) donated to the endowment assets and (b) any accumulations to the endowment assets made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. Donor-restricted amounts not retained in perpetuity are subject to appropriation for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

Avera Health has investment and spending policies for endowment assets designed to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets are invested in a manner that is intended to produce results that achieve the respective benchmark while assuming a moderate level of investment risk. Actual returns in any given year may vary from this amount. To satisfy its long-term rate-of-return objectives, Avera Health relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Avera Health targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints. From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that Avera Health is required to retain as a fund of perpetual duration. There were no significant underwater endowments funds as of June 30, 2023 and 2022.

Note 12 - Leases

The Organization leases certain property and equipment for various terms under long-term, non-cancelable operating and finance lease agreements. The leases expire at various dates through 2049 and provide for renewal options ranging from one year to five years. The Organization included in the determination of the right of use assets and lease liabilities any renewal options when the options are reasonably certain to be exercised. Certain leases provide for increases in future minimum annual rental payments based on defined increases in the Consumer Price Index, subject to certain minimum increases. Also, certain agreements generally require the Organization to pay real estate taxes, insurance, and repairs.

The weighted-average discount rate is based on the discount rate implicit in the lease, or if the implicit rate is not readily determinable from the lease, then the Organization estimates an applicable incremental borrowing rate. The incremental borrowing rate is estimated using the Organization's applicable borrowing rates and the contractual lease term.

The Organization elected the short-term lease exemption for all leases with a term of 12 months or less for both existing and ongoing operating leases to not recognize the asset and liability for these leases. Lease payments for short-term leases are recognized on straight-line basis.

The Organization elected the practical expedient to not separate lease and non-lease components for real estate and equipment leases.

Total right of use assets and lease liabilities at June 30, 2023 and 2022 were as follows:

<u>Lease Assets</u>	<u>Classification</u>	<u>2023</u>	<u>2022</u>
Right of use operating lease assets	Other assets	\$ 121,495	\$ 83,957

Note 13 - Employee Retirement Plans

Defined Contribution Employer Match Retirement Savings Plan (PBVM Match Retirement Savings)

Avera Health has a 403(b) defined contribution pension plan (“403(b) Plan”) available for eligible employees. Under the 403(b) Plan, participant contributions are matched up to 5% of eligible employee compensation. In addition, employees of the frozen defined benefit plans discussed below were eligible to receive additional contributions (“bridge payment”) over the next five years based on specified age and employed tenure requirements determined, based on their employment as of December 31 annually. The final bridge payment was made as of December 31, 2021. The Organization recognized total 403(b) Plan expenses of approximately \$44,334 and \$40,247 for the years ended June 30, 2023 and 2022.

Other Defined Contribution Retirement Plans

Certain consolidated affiliates have defined contribution pension plans available to eligible employees. Employer contributions are based on a percentage of annual compensation and employee level of contributions. Employee and employer contributions are deposited with the plan trustees who invest the plan assets. The Organization recognized total other defined contribution pension plan expenses of approximately \$1,576 and \$2,123 for the years ended June 30, 2023 and 2022.

Deferred Compensation Plan

The Organization has a non-qualified deferred compensation plan that permits eligible employees to defer a portion of their compensation in accordance with the applicable provisions of the Internal Revenue Code. Deferred amounts are not available to employees until a distribution event occurs, as defined in the plan document. The assets are held in the name of the Organization until paid or made available to the plan participant. The related assets are reported in other assets, and the corresponding liability is recorded in noncurrent liabilities. Compensation amounts deferred to the plan were \$7,146 and \$6,590 for the years ended June 30, 2023 and 2022. Investment earnings and corresponding expenses or expense offsets are recorded as non-operating activity in the consolidated financial statements. Net investment earnings on the deferred compensation program totaled \$11,052 and \$(14,619) for the years ended June 30, 2023 and 2022.

Frozen Defined Benefit Plans – Career Average and Cash Balance Plans

Until December 31, 2016, eligible employees of Avera Health and certain consolidated affiliates participated in either the Retirement Plan for Employees of the Sisters of the Presentation of the Blessed Virgin Mary of Aberdeen, South Dakota (“Career Average Plan”) or the Cash Balance Retirement Plan for Employees of the Sisters of the Presentation of the Blessed Virgin Mary of Aberdeen South Dakota (“Cash Balance Plan”), (collectively, the “Plans”). The Career Average Plan was closed to new participants in 2001. The Sisters of the Presentation of the Blessed Virgin Mary of Aberdeen, South Dakota, sponsor these retirement plans. The Plans are not subject to regulations requiring the filing of IRS Form 5500 and are considered “church plans” under the Department of Labor and IRS regulations. The Plans’ fiscal years are from January 1 to December 31. On December 31, 2016, these Plans were frozen to new entrants and benefit accruals for existing participants. Pension benefits under these defined benefit plans are based on a percentage of the employee’s eligible earnings and are payable at retirement under several annuitized payment options.

During the years ended June 30, 2023 and 2022, the Organization recorded expenses of approximately \$11,917 and \$10,637 to the Career Average plan. During the years ended June 30, 2023 and 2022, the Organization recorded expenses of approximately \$585 and \$515 to the Cash Balance plan. The combined actuarially determined funded status of the Plans was a net liability of \$73,559 as of its December 31, 2021 plan year end.

During the year ended June 30, 2023, due to changes to the defined benefit plans and certain underlying participating sponsored ministries of the Sisters of the Presentation of the Blessed Virgin Mary of Aberdeen, South Dakota, the accounting for the plans changed and the funding position of the plan that related to Avera Health and its sponsored entities were separately calculated by the actuary and recorded on the consolidated balance sheet of Avera Health for the year ended June 30, 2023. The funded status of the Plans of a liability of \$142,722 was recorded as an adjustment to unrestricted net assets during the year ended June 30, 2023, which will be amortized as a component of net periodic benefit cost over the estimated remaining benefit periods for the participants of the frozen Plans.

The funded status of the Plans, recorded as pension and other employee retirement plan liabilities in the consolidated balance sheet at June 30, 2023 is as follows:

	Career Average	Cash Balance	Total
Funded Status	\$ (141,600)	\$ (1,122)	\$ (142,722)

The following are weighted-average assumptions used to determine benefit obligations and net period pension cost at June 30, 2023:

	2023
Discount rate	5.50%
Expected long-term rate of return on plan assets	6.75%

Future net periodic benefit cost and funded status of the plans will be impacted by changes to discount rates and the expected long-term return on plans assets. The Organization's expected long-term return on plan assets assumption is based on a periodic review and modeling of the plans' asset allocation and liability structure over a long-term period. Expectations of returns for each asset class are the most important of the assumptions used in the review and modeling and are based on comprehensive reviews of historical data and economic/financial market theory. The expected long-term rate of return on assets was selected from within the reasonable range of rates determined by (1) historical real returns, net of inflation, for the asset classes covered by the investment policy, and (2) projections of inflation over the long-term period during which benefits are payable to plan participants.

It is the Plans' policy to invest pension assets in a diversified portfolio consisting of an array of asset classes within established target asset allocation ranges. The investment risk of the assets is limited by appropriate diversification both within and between asset classes. The assets are primarily invested in a broad mix of domestic and international equities, domestic and international bonds, hedge funds, and private equity assets, subject to the target asset allocation ranges. The assets are managed with a view to ensuring that sufficient liquidity will be available to meet expected cash flow requirements. The target and actual allocations for plan assets at June 30, 2023 are as follows:

	Asset Allocation Target	Actual 2023
Cash and cash equivalents	4.00%	1.40%
Equity securities	56.00%	57.40%
Fixed income securities	26.00%	27.80%
Hedge funds	9.00%	9.40%
Private equity	5.00%	4.00%
	<u>100.00%</u>	<u>100.00%</u>

The investment valuation policy of the Plans is to value investments at fair value. Equity securities for which market quotations are readily available are valued at the last reported sales price on their principal exchange on valuation date or official close for certain markets. Fixed income investments are valued on a basis of valuations furnished by a trustee-approved independent pricing service, which determines valuations for normal institutional-size trading units of such securities which are generally recognized at fair value as determined in good faith by the trustee. Investments in registered investment companies or collective pooled funds are valued at their respective net asset values. The fair value of real estate is determined by periodic appraisals.

The following table sets forth by level, within the fair value hierarchy, the Organization's pension plan assets at fair value as of June 30, 2023:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 7,191	\$ -	\$ -	\$ 7,191

Real asset funds	8,615	2,556	(B)
	<u>\$ 353,293</u>	<u>\$ 9,172</u>	

(A) This category includes funds that employ a multi-strategy approach in managing the fund; capital is allocated amongst a diverse industry base, employing a broad range of strategies. Strategies include, but are not limited to convertible and derivative investing, risk arbitrage and event driven investing, energy investing, yield and credit related investing, private placements and private investments, debt portfolios, distressed investing, quantitative trading, reinsurance and risk-linked investing, fixed-income trading, structured finance, global macro trading, long/short investing, and special investments. Redemptions from certain funds in this category have been suspended as the funds are currently in the process of liquidating.

(B) This category includes several private equity funds focused primarily on investing in a diversified portfolio of limited partnerships, limited liability companies, and private REITs, or similar entities that will be focused on Value Added opportunities in the acquisition, development, redevelopment, operation, and management of commercial real estate properties. There are limited provisions for redemptions during the life of these funds. Distributions from each fund will be received as the underlying investments of the funds wind down over expected future periods.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated as follows:

2024		\$	34,671
2025			35,486
2026			36,388
2027			37,466

Note 15 - Commitments

The Organization has entered into several agreements that contain long-term contractual purchase commitments or promises to give. Unconditional promises to give are recorded as other current and non-current liabilities in the consolidated balance sheets.

A summary of outstanding commitments under conditional promises to give and other long-term contractual purchase commitments is as follows for the years ending June 30:

2024		\$	71,273
2025			38,858
2026			25,284
2027			17,691
2028			14,434
Thereafter			13,165
			13,165
		\$	180,705

Alternative Investment Commitments

The Organization has commitments to invest approximately \$4,950 in various alternative investments as of June 30, 2023.

Other Commitments

Avera Health Plans, Inc., South Dakota State Medical Holding Company, Inc. d/b/a Dakotacare, and Avera Property Insurance, Inc., affiliates of the Organization, are required to maintain a minimum net worth under the laws of the State of South Dakota. As of June 30, 2023, management believes they have met the minimum net worth requirements.

Note 16 - Contingencies

Malpractice Insurance

The Organization and most of its consolidated affiliates primarily participate in a self-insured professional liability program which provides malpractice insurance coverage for professional liability losses subject to a self-insured retention of \$3 million per claim and \$9 million annual aggregate, \$2 million per claim and \$6 million annual aggregate prior to January 1, 2019. The Organization is also insured under an excess umbrella liability claims-made policy with a limit of \$35 million per claim and \$40 million annual aggregate. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be insured subject to the self-insured retention only. Certain consolidated entities maintain their professional liability coverage on a claims-made basis with no significant deductibles.

Litigation, Regulatory and Compliance Matters

The healthcare industry is subject to voluminous and complex laws and regulations of federal, state and local governments. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. These laws and regulations include, but are not necessarily limited to, the rules governing licensure, accreditation, government healthcare program participation, government reimbursement, antitrust, anti-kickback and anti-referral by physicians, false claims prohibitions, and in the case of tax-exempt organizations, the requirements of tax exemption. In recent years, government activity has increased with respect to investigations and allegations concerning possible violations by healthcare providers of reimbursement, false claims, anti-kickback and anti-referral statutes and regulations, quality of care provided to patients, and handling of controlled substances.

In addition, during the course of business, Avera Health becomes involved in litigation. Management assesses the probable outcome of unresolved litigation and investigations and determines the appropriate accounting recognition or disclosure based on their assessment. As of June 30, 2023 and 2022, management feels there are no asserted or unasserted claims that would have a material impact on the consolidated financial position, results of operations, or cash flows of the Organization.

Note 17 - Concentrations

Credit Risk

The Organization grants credit without collateral to its patients and residents, most of whom are insured under third-party payor agreements. The mix of receivables from third-party payors, patients and residents at June 30, 2023 and 2022, are as follows:

	<u>2023</u>	<u>2022</u>
Medicare	42%	34%
Medicaid	8%	8%
Blue Cross	14%	14%
Commercial insurance	14%	24%
Other third-party payors, patients and residents	22%	20%
	<u>100%</u>	<u>100%</u>

The Company maintains its cash in bank deposit accounts which periodically exceed federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$250 per depositor, per insured bank, for each account ownership category. At June 30, 2023, the Company had approximately \$99,990 in excess of FDIC-insured limits.

Note 18 - Business Combinations and Divestitures

2023 Acquisitions

During the year ended June 30, 2023, the Organization acquired an 80% membership interest in a company that provides in home nursing, aide homemaker other attendant services, and an emergency response system in Sioux Falls, South Dakota. The results of operations for this acquisition have been included in the accompanying consolidated financial statements for the period subsequent to the acquisition date.

The 2023 acquisition was allocated to the acquired assets and liabilities based on estimated fair value as of the business combination date during the year ended June 30, 2023 as follows:

Receivables and other assets	\$	15
Property and equipment, net		67
Goodwill		750
Total assets acquired		<u>832</u>
Liabilities assumed		<u>(570)</u>
Net cash paid	<u>\$</u>	<u>262</u>

2022 Acquisitions

During the year ended June 30, 2022, the Organization acquired two pharmacy operations in the Aberdeen South Dakota market. The results of operations for these acquisitions have been included in the accompanying consolidated financial statements for the period subsequent to the acquisition dates.

2022 acquisitions were allocated to the acquired assets and liabilities based on estimated fair value as of the respective business combination date during the year ended June 30, 2022 as follows:

Receivables and other assets	\$	984
Property and equipment, net		93
Intangible assets		2,820
Total assets acquired		<u>3,897</u>
Liabilities assumed		<u>(346)</u>
Net cash paid	<u>\$</u>	<u>3,551</u>

2022 Divestitures

During the year ended June 30, 2022, the Organization sold Avel eCare LLC (Avel) and related operations to a third party. Due to continued utilization of the virtual clinical services throughout the Avera footprint, the Organization did not consider the results to be a significant shift in its strategy, and as Avel did not have a material impact on the consolidated operations or cash flows of the entity, it is not reflected as discontinued operations. A gain on the sale of the business unit was recorded for amount of sale proceeds, net of transaction costs in excess of the net assets liquidated.

The sale resulted in net assets divested as shown in the following table.

Other receivables	\$	9,391

Note 19 - Provider Relief Funds

Avera Health received \$7,444 and \$43,160 of COVID-19 stimulus during the years ended June 30, 2023 and 2022. The provider relief funds are subject to terms and conditions imposed by HHS. Among the terms and conditions is a provision that payments will only be used to prevent, prepare for, and respond to coronavirus and shall reimburse the recipient only for healthcare-related expenses or lost revenues that are attributable to coronavirus. Recipients may not use the payments to reimburse expenses or losses that have been reimbursed from other sources or that other sources are obligated to reimburse. HHS currently has deadlines to incur eligible expenses and lost revenues, which vary based on the date the funds are received. Unspent funds will be expected to be repaid.

These funds are recorded as a refundable advance when received and are recognized as operating revenues in the accompanying consolidated statements of operations as all terms and conditions are considered met. The terms and conditions are subject to interpretation and future clarification. In addition, this program may be subject to oversight, monitoring and audit. Failure by a provider that received a payment from the provider relief fund to comply with any term or condition can subject the provider to recoupment of some or all of the payment. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

As of June 30, 2023 and 2022, the Organization had total refundable advance balances related to provider relief funds of \$65 and \$3,496, which were included in current liabilities on the accompanying consolidated balance sheets. During the years ended June 30, 2023 and 2022, the Organization recognized \$10,875 and \$50,279 as revenue, included in COVID-19 stimulus revenue on the consolidated statements of operations.

Note 20 - Related Party Transactions

The Organization has transactions with entities related to the minority partner of Heart Hospital of South Dakota LLC for various services, including professional medical services and rent.

Related party transactions were as follows for the years ended June 30, 2023 and 2022:

	2023	2022
Professional services and other	\$ 24,215	\$ 21,732
Lease/rent	1,442	1,159
	\$ 25,657	\$ 22,891

As of June 30, 2023 and 2022, the Organization had approximately \$3,045 and \$3,234, in accounts payable in the accompanying consolidated balance sheets related to purchases from related entities.

Note 21 - Subsequent Events

On October 27, 2023, the Organization entered into a revolving credit agreement with a financial institution providing \$125,000 for working capital and general corporate purposes. Loan advances are available in minimum \$1,000 amounts. A commitment fee is charged based on the average daily available revolving commitment and the Organization can reduce its maximum revolving commitment upon written notice. Interest is charged based on a variable rate, subject to credit rating adjustments as prescribed in the agreement and is due monthly. Any unpaid interest and principal amounts are due when the credit agreement expires on October 27, 2026.

The Organization has evaluated subsequent events through October 27, 2023, the date which the consolidated financial statements were issued.
